Good Monday Morning,

May the Spirit of the Gospel and the Holy Word be Always on our Tongues, in our Hearts, Minds, and in our Hands.

[I find the **continued blocking of Archive** (.today or .is) by FireFox (a corpDragon of Satan) interesting.

I thought perhaps it was because I was refusing the auto-upgrades of that web browser and perhaps needed to upgrade again (which may have brought on this active Blocking of that site in the first place) and assumed perhaps a Bug in code and would be fixed .. but no!

What kind of mind-raping evil horrors are in control of our Gov where we are not protected from such inHuman Demon-directed Nightmare Witches?

.. So I must use a different 'less capable' browser and even still sometimes the site is blocked, although more honestly – not pretending some fake-site was reached and so should give-up assuming the Site stopped working .. which is a great example of Slimy putrid Female-Evil methods, and those of us with Demon-controlled mothers, wives, aunts, older sisters and co-working, managing, .. putrid lying mind-raping horror modern Western women & their twisted children should have experience with.

Feel free to continue reading and imagine how much better this might have been had not such evil attached itself to me back as a young man working at UVM, or any of us – including all those Suicides driven but such active Witches and their putrid vile modern Western Toxic Septic Horror women & other minions in power all around us. Would we be sliding turbo-speed into Hell with child-mutilation, babies tortured-to-death, minds jammed with Porn and womanhood become even greater Piles of Poisoning Septic Vomit - directed by Satan?]

Something like "*a Fool's Foreskin*"?

(Strange title? I give it this as explained *in this Post*, (archived: <https://archive.ph/VdEkH>, IN: 1486, See PS for full URLs) along with more interesting model of Holy information, if interested.)

In this morning's prayers and meditations I Reflected on the Integration which occurs and implied in my model of the Holy, the increasing Dimensional of integrating (Knitting) together each Jacob's Ladder Levels – capturing the choices and ultimately Recording the mMaster's Choices and Logic in Self-Healing process.

This process I imagine is done by the Holy Ghost using Archangel Saint Raphael, Gabriel, and Micheal and the Guardian Angels active during each of the Day-of-Bread being integrated, and of course the more successful the Greater the 'Weights' applied, as well as those mMaster versions of the soul Advanced-up Jacob's Ladder -along with at least some of the tTheir Avatar versions.

Part of this is the musings of the social-limit metric defined as *Dunbar Number* ([archive: https://archive.ph/7vBFx](https://archive.ph/7vBFx), use archive if possible as better seeming then the Soros' funded more-lobotomized version now, and consider how much better it was-would-be if Satan's hand not erasing) which was recently discussed in [this post \(archived: https://archive.ph/4ypWS](https://archive.ph/4ypWS), IN: 2008, see PS for full URLs) and I suggest that social animals that are Projected Avatars up from lower Jacob's Ladder Level versions of our soul may be an indication of how many Levels they are down, ..

.. which suggested to me a different Path of consideration, thusly;

In the Garden of Eden God formed Adam, Unity or  $2^0$ , single cells, and then Sex was introduced with Eve or  $2^1$ , and this lead to Consciousness and Ejection from Garden and two children,  $2^2$ , from which Predator (Animals) which never existed in Garden and Spawned from a Hunger not physical, and from the Predator (Cane) he went-through another Level of the ejection of the Garden, and spawned perhaps a Tribe (pack) or Tribes of  $2^3$  or of size 8.

And in such a Process that villages and Cities, and Cities and Nations – each putting Holy Pressure to expand the Dunbar Number .. pressure in that those with greater abilities do better and those that do not die away.

—

In this one might Argue that our [Holy] Human abilities of Communion increases as we Advance-up Jacob's Ladder towards Top and God's Holy Church – Holy Israel where we are Perfect and interlinked with all Other Saints and with God.

—

I got tied-up updating - to some degree - those URL for the two above referenced posts, but I think considering the rest of the post is blank and I have a few videos I hope to add, I will continue with that, hoping those will also [Holy] Profit you.

## Theory problem sheet

Page 1 of 9

**1. Famous astronomical events (10 p)**

Arrange the following astronomy-related events in chronological order from the oldest to the most recent. Write the correct serial number (between 1 and 11) in the appropriate box on the answer sheet.

1. Launch of the Hubble Space Telescope
2. Viking probes arrived at planet Mars
3. Discovery of Phobos and Deimos
4. Latest perihelion of comet 1/P Halley
5. Discovery of Ceres (asteroid / dwarf planet)
6. Discovery of Uranus (planet)
7. First successful measurement of a stellar parallax
8. Discovery of the first planetary nebula
9. Discovery of stellar populations (I and II)
10. First identification of a quasar with an optical source
11. Discovery of the expansion of the Universe

**2. Deflection of radio photons in the gravitational field of solar system bodies (10 p)**

A. Eddington and F. Dyson from Principe, and C. Davidson and A. Crommelin from Sobral, Brazil measured the deflection of light coming from stars apparently very close to the Sun during the total solar eclipse in 1919. The deflection was found to agree with the theoretically predicted value of  $1.75''$ .

A light ray (or photon) which passes the Sun at a distance  $d$  is deflected by an angle

$$\Delta\theta \propto \frac{4GM_{\odot}}{dc^2}$$

The present-day accuracy of the VLBI (Very Long Baseline Interferometry) technique in the radio wavelength range is 0.1 mas (milliarcsecond). Is it possible to detect a deflection of radio photons from a quasar by (a) Jupiter, (b) the Moon? Estimate the angle of deflection in both cases and mark "YES" or "NO" on the answer sheet.

**3. The supermassive black hole in the centre of Milky Way Galaxy and M87 (10 p)**

The first image of a black hole was constructed recently by the international team of the Event Horizon Telescope (EHT). The imaged area surrounds the supermassive black hole in the centre of the galaxy M87. The observations resulting in the final image were carried out at a wavelength  $\lambda = 1.3$  mm where the interstellar extinction is not prohibitively large.

- a) How large an instrument would be needed to resolve the shadow (in effect the photon capture radius, which is three times the size of event horizon) of a supermassive black hole in the centre of a galaxy? Express the result as a function of the distance  $d$  and the mass  $M$  of the black hole.

**1. Photometry and spectroscopy of Nova Del 2013** 60 p

a) From the light curve plot the Modified Julian Dates can be read with an error of about 0.5. The peak of the maximum brightness is very narrow and obviously placed at  $MJD_0 = 56\,520.5$  with a value of  $m_0 = 4.5^m$ , therefore:

$$MJD_0 = \boxed{56\,520.5 \pm 0.5} \quad (2\text{ p})$$

$$m_0 = \boxed{4.5^m \pm 0.05^m} \quad (1\text{ p})$$

b) The brightness values of 2<sup>m</sup> and 3<sup>m</sup> decline are  $6.5^m \pm 0.05^m$  and  $7.5^m \pm 0.05^m$ , respectively. (2 p)  
 The corresponding Modified Julian Dates are  $MJD_2$  and  $MJD_3$ . Because of the poorly defined slopes on the light curve around these dates, their acceptable error is larger than in other parts of the light curve, let say it is about 1<sup>d</sup>, so:

$$MJD_2 = \boxed{56\,531.5 \pm 1}, \quad MJD_3 = \boxed{56\,543.5 \pm 1} \quad (2\text{ p})$$

$$t_2 = \boxed{11^d \pm 1^d}, \quad t_3 = \boxed{23^d \pm 1^d} \quad (2\text{ p})$$

c) The text of this part does not ask for calculating the individual errors of the formulae, but it is worth estimating them here, just for the sake of completeness. (Students won't do it.)

(a) The form of the function is

$$(1.1) \quad M = a + b \arctan \frac{c - \log t_2}{d}, \quad a = -7.92, b = -0.81, c = 1.32, d = 0.23,$$

so its derivative:

$$(1.2) \quad M' = - \frac{b}{d \log(10) \left[ 1 + \left( \frac{c - \log t_2}{d} \right)^2 \right]} \frac{1}{t_2} \rightarrow \Delta M = - \frac{b}{d \log(10) \left[ 1 + \left( \frac{c - \log t_2}{d} \right)^2 \right]} \frac{\Delta t_2}{t_2}$$

The value and its error calculated from the formulae above (error is not necessary):

$$M_0^{(a)} = \boxed{-8.63^m \pm 0.06^m} \quad (1\text{ p})$$

**Dancing Israelis**

"Dancing Israelis" references an

antisemitic conspiracy theory citing the false claim that five Israeli Mossad agents were arrested on 9/11 by police who observed them filming the attack and then dancing in celebration as they watched the Twin Towers fall.

**THE DANCING ISRAELIS: FBI DOCS SHED LIGHT ON APPARENT MOSSAD FOREKNOWLEDGE OF 9/11 ATTACKS**

The FBI concluded in its investigation that the five Israelis arrested "were conducting a Mossad surveillance mission and that their employer, Urban Moving Systems, served as a front."

At least two of the men arrested were determined to have direct links to the Mossad after their names appeared in a CIA-FBI database of foreign intelligence operatives.

This is a picture of a Electric car charging station that are popping up everywhere. Here's

an interesting fact.... That 350kw generator uses 12 gallons of diesel fuel per hour, and it takes 3 hours to fully charge a car to get 200 miles. That's 36 GALLONS for 200 MILES!!! 5.6 mpg.  
Proof you can't fix stupid...

Reminder that they covered up the Israeli attacks on the USS Liberty because they didn't want to "embarrass" our "greatest ally"

It appears they covered up their involvement again on 9/11.

We appreciate @X's new blog post outlining its stated approach to combating antisemitism and other forms of hate on the platform. The words are good but, ultimately, actions speak louder than words.

ADL will continue our work of monitoring both hateful actors on the platform and X's enforcement of its own policies, just as we do with other major social media platforms. We will credit them if we see that they get it right and we will reserve the right to hold them accountable if they get it wrong.

As we have said repeatedly, we remain committed to doing what we can to help X be a healthier and safer platform for all of its users.

Therefore our opponents are quite right that we spread hate & fear. Hate of the elites & fear of the consequences of their actions.
