Good Friday Morning,

May the Spirit of the Gospel and the Holy Word be Always on our Tongues, in our Hearts, Minds, and in our Hands.

Holy Virgin Mary and All Saints - Pray for us!

—

—

Index Number 2201:

—

Another Friday already! We have rain and my brother, his son, and I are planning a shopping trip which will be a short quick collection of freezer stuffing. Chuck Steaks, and maybe some lamb. I wanted to get a leg of lamb – and old family tradition - for Easter but the one I looked at that was something like \$75! I suppose I look at the packaged bits. Ideal a Lamb Shank might be possible to afford, but last month nothing like that was on the refrigerator shells – I will ask the butchers today in case they have some in a back freezer or maybe able to cut one for me.

—

With the clouds and rain it is after 7 am and still dark .. this is the kind of gripping news I have to report this morning. Perhaps it is related to the fact that I am only now getting to drink my tea.

—

Some things to consider, perhaps.

Saint Fulton Sheen, all Saints of the Day – Pray for us!

-

May this be a Blessing to you and us all. [And all our Futures, and future Multiverse Pasts.]

Another very good conversation – the judge and Max argue well and clearly that our political system is owned by murdering Genocidal best Burned to Death as Satanic Minions Jews and Zionists, and as most have already know we are tax enslaved Cattle they torture and torment and disrespect as they turn our society and lives into a Shit-Filled Hell, and ever since no one hanged to death courts and police that ever came to drag fathers from his house and children based of the vileness of Sick Western women and motherhood – they know that armed is okay for us because we have been Castrated in mind-virtue-soul by Satan, Vile Womanhood, Jews and their enslaved minions and Institutions.

Oh, God, would a nice world-wide Nuke war be Better? Many would be okay to find out., ..

Sadly it seems that over 90% of israel adults Just publicly hanged to death as genocidal mind-raped horrors .. and after 75+ years of evil from israel as a clear example – long before the open genocide now happening – made and makes it clear israel is Evil and gone is Right. Nuking them would remove the ability for Just return of Palestinians taking over from those Soul-Dead howling-evil Jews.

Climate Change - There is NO emergency!!!

There has NEVER been an emergency except to line politicians pockets and take away our freedoms!!!!

1,100 eminent Scientists declare: 'There is NO climate emergency'

by CLINTEL GROUP

CLIMATE science should be less political, while climate policies should be more scientific. In particular, scientists should emphasize that their modelling output is not the result of magic; computer models are human-made.

What comes out is fully dependent on what theoreticians and programmers have put in: hypotheses, assumptions, relationships, parameterizations, stability constraints, etc. Unfortunately, in mainstream climate science, most of this input is undisclosed.

To believe the outcome of a climate model is to believe what

- Dr. Cornelis Le Pair, The Netherlands
- Professor Reynald Du Berger, Canada
- Barry Brill, New Zealand
- Viv Forbes, Australia
- Professor Jeffrey Fox, Canada
- Jens Morten Hansen, Denmark
- Professor László Szarka,

the model makers have put in. This is precisely the problem of today's climate discussion in which climate models are central. Climate science has degenerated into a discussion based on beliefs, not on sound, self-critical science. We should free ourselves from the naive belief in tomorrow climate models. In future, climate research must give significantly more emphasis to empirical science.

There is no climate emergency

A worldwide network of over 1,100 scientists and professionals has prepared this urgent message. Climate science should be less political, while climate policies should be more scientific. Scientists should openly address uncertainties and exaggerations in their predictions of global warming, while politicians should disproportionately count the real costs as well as the imagined benefits of their policy measures.

Natural as well as anthropogenic factors cause warming

The geological archives reveals that Earth's climate has varied as long as it has existed, with natural cold and warm phases. The Little Ice Age ended as recently as 1850. Therefore, it is no surprise that we now are experiencing a period of warming.

Warming is far slower than predicted

Climate policy must respect scientific and economic realities. There is no climate emergency. Therefore, there is no cause for panic and alarm. We strongly oppose the harmful and unrealistic net-zero CO² policy proposed for 2050

The world has warmed significantly less than predicted by IPCC on the basis of modelled anthropogenic forcing. The gap between the real world and the modelled world tells us that we are far from understanding climate change.

Climate policy relies on inadequate models

Climate models have many shortcomings and are not reasonably plausible as useful policy tools. They blow up the effect of greenhouse gases such as CO₂. In addition, they ignore the fact that enriching the atmosphere with CO₂ is beneficial.

CO₂ is plant food, the basis of all life on Earth

CO₂ is not a pollutant. It is essential to all life on Earth. Photosynthesis is a blessing. More CO₂ is beneficial for nature, greening the Earth, additional CO₂ as the

air has promoted growth in Earth's great biomass. It is also good for agriculture, increasing the yields of crops worldwide.

Global warming has not increased natural disasters

There is no statistical evidence that global warming is intensifying hurricanes, floods, droughts and methane natural disasters, or making them more frequent. However, there is ample evidence that CO₂ mitigation measures are as damaging as they are costly.

Climate policy must respect scientific and economic realities

There is no climate emergency. Therefore, there is no cause for panic and alarm. We strongly oppose the harmful and unrealistic net-zero CO₂ policy proposed for 2050. If better approaches emerge, and they certainly will, we have ample time to reflect and re-adapt. The aim of any

policy should be 'prosperity for all', by providing reliable and affordable energy at all times. In a prosperous society, men and women are well educated, incomes are low and people care about their environment.

The World Climate Declaration (WCD) has brought a large variety of competent scientists together from all over the world*. The considerable knowledge and experience of the group is indispensable in reaching a balanced, dispassionate and competent view of climate change.

From now onward the group is going to function as "Global Climate Intelligence Group". The CLINTEL Group will give selected and unselected advice on climate change and energy transition to governments and companies worldwide.

* It is not the number of experts but the quality of arguments that counts.

I think when people like GLR & Zundel & Pierce etc talked about the Americans going ape shit on the jew at some point- they were spot on. We are not Germany. We will be what they claimed Germany was.

I think that because of the access to the information we have, people are more aware of the long, long history of lies & evil that need atoned for.

I think that you couple that with the type of evil - stuff that's far beyond what Weimar was, the anger & need for revenge will be more than they've seen... at least seen since Hadrian.

Plus- and this is kind of the icing on the cake, the jews have made it so that there aren't the normal things that would hold men back... most don't have land or homes or families. They can't even find fuckin jobs. This new crop of men will literally have nothing to lose & an anger for the people who created that problem will be unprecedented.

With that said, it's a free country. If you can afford to retire, do what you want.

Jewish Law Requires Women to Take Their Dirty Panties to a Rabbi for INSPECTION

NIDDAH: Jewish laws of family purity that revolve around the color of a woman's vaginal discharge.

Rabbis are LITERALLY panty sniffers, BY LAW!

The laws of family purity apply to all spectrums of orthodoxy, including the modern ones that allow women to wear trousers and uncover their hair, like the sect Ivanka Trump belongs to, for example. Even the slightest deviation from these laws would compromise a couple's standing as practicing Orthodox Jews in the eyes of God. If a woman's discharge is lighter and darker than tan, she must take the underwear or cloth to a special rabbi for further evaluation. This Rabbi will then examine the color to determine if it is light enough for her to keep counting, or if it's too dark or too red tinted such that she must begin counting the seven clean days over, even if it is day 7. Rarely see a better example of how Israel is the true enemy of Americans. The dangerous app TikTok was allowed to flourish while destroying the minds of American youth until it started being anti-Israel.

Glenn Greenwald @ggree... · 1h :

Right-wing media has claimed for years that Democrats and Biden are in the pocket of China, utterly captive to and controlled by it.

Yet Biden and most Dems favor banning of TikTok or forced sale.

Anyone tried to reconcile this, or wondered if there's another motive in play?

Gab, fediverse instances, doesn't matter where we run digitally. With the beginning of the passing of the laws to redefine anti-semitism at the state levels and with this suddenly having so much support to get passed at the federal level, they are coming for anti-semites the same as the Soviet Union did.

Remember, only Nazis are anti-semites and it is ok to kill Nazis.

TikTok has 10 times more pro-Palestinian content than pro-Israel content

This is why it must be banned not because it's owned by a Chinese company

This bill also applies in gives congress the ability to ban all websites and apps that they see as a threat in the future

@GovRonDeSantis

For quite some time, the State of Florida has been dedicating significant resources to combat illegal vessels coming to Florida from countries such as Haiti. Given the circumstances in Haiti, I have directed the Division of Emergency Management, the Florida State Guard, and state law enforcement agencies to deploy over 250 additional officers and soldiers and over a dozen air and sea craft to the southern coast of Florida to protect our state. No state has done more to supplement the (under-resourced) U.S. Coast Guard's interdiction efforts; we cannot have illegal aliens coming to Florida.
