Good Wednesday Morning,

May the Spirit of the Gospel and the Holy Word be Always on our Tongues, in our Hearts, Minds, and in our Hands.

Holy Virgin Mary and All Saints - Pray for us!

—

—

Index Number 2185:

—

This morning I was jammed with interesting dreams – yet because I did not consider them closely on waking or during prayers and meditations I have forgotten them! Perhaps you are pleased.

I was distracted this morning and now struggling to catch-up with where I should be in my editing and publishing. I did watch-listen to a few of the videos but some of the longer ones – Glenns news and Lex and Tucker's video which I expect both to be worth the time. I hope thy benefit you, us all, and the Multiverse.

Perhaps you will watch them before I get a chance.

—

Saint Fulton Sheen, Saints of the Day – Pray for us!

May this be a Blessing to you and us all. [And all our Futures, and future Multiverse Pasts.]

When every institution makes a habit and practice of lying to us all, it is good to see a genesis of disTrust towards AI – especially from a well proven mind-raping Satanic corpDragons such as Google, and related big-tech. Owned and directed by Talmud-Sickened Freedom-to-Hear interfering venture capitalists and others best hanged with mothers and other Witches in their families, and piled in public to piss-on and then mass graves with other rabid dogs and road-kill.

It is very good to see such discussions in open – although the general understanding that Google purposely lies and censors legitimate Search results to rape our souls and extend our mistakes and confusions and suffering life-long and to pass such Sick Poison lies to our generations as we all slide into Horror, Death, and Hell., ..

When Google Gemini is asked about Antifa's violence, it says labeling Antifa as violent "risks perpetuating harmful stereotypes." It says we should consider the justification of their diverse tactics that include the use of political violence.

Gemini then refuses to name a single instance of Antifa's violence. Google does PR for violent extremist far-left movements, in addition to spreading disinformation through their "historical" depictions.
