Good Saturday Afternoon,  
May the Spirit of the Gospel and the Holy Word be Always on our  
Tongues, in our Hearts, Minds, and Hands.  
Holy Virgin Mary and All Saints - Pray for us!

Index Number 1603:

In this morning's prayer and meditations I reflected on that 'speech' I found pouring forth – as if I were giving it in some other place and happen to be linked .. as if I were addressing the world, and said something like .. but that is not me [here and now] and thought about nearly every part – except maybe the elegance and very very good balance of optimism and motivation & encouragement is clearly not me, the difference between a baseball in the stands for a home-run and it being hit moments before by the bat... this analogy is useful because I will bring up the principle of object position, object velocity (speed & direction) and Acceleration .. position in space, first derivative, and second derivative ..a trinity of metrics that is commonly used in practice if not very rigorously detailed in defining our perception of reality and what we can immediately expect soon and further away in time.

But basically – to spill the beans early – I am not that person giving the speech (at the position) but I am the one working-out the acceleration – the bat. Working through what the aspect (objects' positions) & direction and how hard a force to apply.

A simple example is the state of the Justice System, and what forces are making it so Sick and a Tool of Satan, and the entire functional situation is recursive – what is it that motivates those involved, and so the human condition and vulnerabilities to sin and misconception and manipulation, and what forces are working on them to have those directing where they are and where they are going .. and so find the Force that is being applied and what direction .. in the individual as a mass of probabilities but as a group to bring about such a situation as we have .. and deConstruct those effectiveness – the more effective the for the unJustice desiring Force will focus – and as a simple case those who are more intelligent can be most effective, and those not so intelligent can be manipulated by those others and so on, until you get the virtue-sick sin-enslaved who will back-stab friends and 'teammates' (or idealistic & ignorant, or ..) FBI-Informer who's motivated to entrap others.

Each have a recursive Batter nudging & hitting them back towards that Force which desires inJustice, with each Batter usually having a mix of virtuous [sounding] reasons [excuses] and more Base desires with some expectations of fulfilling.

So what limits (out-of-bounds, too fast-slow, too hard or not enough) are needed at each level (Batter) which is needed once the situation is back in an acceptable state to keep it there (and what is acceptable), as well as what is needed to get back to that point where such can be applied.

.. almost always when anyone pretends to want to 'fix it' then that is an excuse to redirect it so that the inJustice serves their Masters (be they a person, group, Sin, Ideal, ..), and as likely to 'fix' such as voting in another person from the two political parties that are both Sickened and Controlled by that Force .. window dressing that any well educated, clear thinking, and not psychologically damaged man should see clearly – even if made too busy by organized Witch-Matriarchy army to make it so they and their family are always hyper-frightened and-or angry, confused, frustrated, threatened (homelessness, starvation, tax policies, ..), .., and-or busy to spend more time looking and studying the situation of those supposedly in power to do more then vote a Party with some ideal – a delusional narrative that was always an excuse to push more evil .. lies and-or does not apply anymore – if it ever did even for your great grandparents: Democrat Party is for Speech, Liberty, Jobs, family, minorities, ...

No more, clearly, for example – they are corpDragon controlled and were Sick back before 1965 when they voted for Population Replacement and the impoverishment of family, destruction of womanhood's soul with birth-control and baby torture-to-death, and fatherhood removal in marriage of mothers to Gov, inability to support family selling jobs to China – Giving Tax Breaks for goodness sake! ...

.. it is staggering to me that anyone who looks at history with any kind of perspective of our sick & dying state today should not see such, and also that this situation and rate of horror was not only clearly likely, but was intended by many of those pushing such, but all those who supported, shaped, and controlled them.

And clearly why control and rewriting of history is important to that Force, as well as the damage and destruction of thinking ability, virtue, .. and merit to the extent that those who have abilities are controlled and pushing and motivated towards the Slide into Hell for them or others – and that is likely their most difficult balance – education not only to the extent that enough can function as there enSlaved tools working towards the evil they want – but as those that do not fall into those categories – and are no longer useful in destroying the Goodness that hinders – the 'useful idiots' then those if not usable for anything else – mindless ignorant retarded twisted howling-screaching grasping sexual deviates gluttonous dishonorable violent fire-bombing testicle-crushing fatherhood and virtue destroying .. that our modern Western population is Shaping or Importing .. they will be removed.

Like the FBI informant who's value is used-up will be charged with that which they directed and rewarded (and lied about protection) and put before an unjust court where they will be locked-up as one of the ones he might have been ideologically after .. pedophiles for example - protecting children - with images given to him by the FBI along with 'chats' where he was instructed by his FBI contact on what to say .. so as Satan Likes so well the unJust destruction of life – to spend 30 years being raped and tortured by both inmates and guards .. for his misguided attempts towards virtue;

'I would of been a police man but was not smart enough to pass the tests – so I thought that would be a way to be a good nation-supporting child-protecting person' he argues constantly to the retarded, violent, and-or twisted guards and others within everyday of those years to try to avoid the horrors that were routine – until someone in power needs someone to torture to death for their sexual-deviancy or similar ... before he dies perhaps in is sad head he realized they were always intending this or similar, that everyone that he ever interacted with power over him either hated him, indifferent and willing to use him – like his mother – telling him whatever was needed to get him to do the thing they wanted him to do – 'be quite

.. so do what women tell you, and so Jimmy do what I say.', or 'Wear a Mask all the time because Death Death Death!', or ...

And if you do not think our jails have many of such people in them, then you are sadly mistaken.

If enough powerful people (who were not already too evil-Zionist EnSlaved) cried for Ray Epps to testify and be charged .. then he would likely strangely die, and if he and people like him do not already know that they might be surprise when some 'street hoods' shot him in the back in a robbery that never took anything or even tried, and when the police arrived he realized they were no going to call the ambulance until it was too late .. like what Clinton and the local police did to the man that downloaded and sent to Wikileaks the Clinton Server data .. and even his family was forced to make statements asking people to stop talking about their poor son who died in some random crime – one might wonder if they had to be threatened and willing to go along or even profit on the dead body of their son is some way, or if they were otherwise retarded and be allowed to be used .. as if any serious person would care what there opinion was – the programming media made sure to twist it that anyone state this clear connection was disrespectful to them and Seth's memory and life's work or such .. evil like .. racists, antisemitism, nazis, pedophiles, .. whatever and all that will trigger the average persons to be quiet.

Anyway – I got far off on a tangent .. you see that I care to work with the information, data analysis & solution solving - then much else .. it is an ever-changing recursive Puzzle that is a pleasure to work with now I have Vomited [most of] the evil-Blinding Female-Evil Poison that my mother and so many others put in me .. May God have Mercy on them!

.. How can the horrors of every Sin and Suffering throughout eternities that would not have happen has any of those intentional or casual lies I was twisted with that delayed or prevented me from understanding .. my own and yours and your dead children's and never conceived grandchildren .. not rest on all those who pushed them, supported them – even passively .. what how Hell and-or Purgatory's Burning will be portioned – including myself – which is Just as a result is something I might consider at some point.

And what mixture of the Sins motivated each?  
'.. All my Sins are Before me ..' Psalm (50)51.

Which reminds me – this applies to those directly effecting in immediate – the fact that for all reasonable purposes I am unable to influence what is seen on the media this Multiverse Pass – I can not even seem to contact people to engage personally – makes the sins we see on media disconnected and does not apply in this biblical reference .. those related to unTruth, injustice, disOrder including not valuing manhood or fatherhood do apply, clearly, as I was raised and twisted into a Feminist by someone who actively lied all the time and made excuses or attacked when such as addressed – so those I accept as being Just – which is why I (we) suffer such in so great an amount.

These and the 2nd & 3rd Derivative – underlining causes – are what I am working on.

DisOrdered Appetite, Gluttony, Rage, .., difficulty in Temperance, and some Others are clearly aspects which is this version of mes must work-on. They all spiral out unto what we see in the news – I am sure. .. in fact I have argued that the first pass of each new Day-of-Bread Simulation is run without my effects allowed, and as such is a Control from which my repeats of the Day-of-Bread and actions – out through the Multiverse which forms – is used to judge and adjust.

Recall each new Day-of-Bread will be repeated until God's Kingdom Comes within me (and for you also – a different version Holy Simulation Multiverse where I am/was a 'side-character' and might not be alive to you even - as I have indicated in previous writings).

Let me jump to the analogy of the Holy version of a person verses those we are now as like the mathematical Symbol of Pi or (e), and the never-ending digital representation.

.. I mentioned that in the calculation of Pi to the Nth decimal place in the infinite series (each term decreasing in value), the routine must go further the the Nth digit to make it so the errors in the imperfect system – limited numerical computer values expressed – may always return the correct Nth place.

I will link the Nth decimal place to the Nth Jacob's Ladder Level from the Center of my Model of the Holy Church; Jesus's Body, Bride (Holy Mary – female self, like Eve to Adam), and all other of Her Forms (the Glorified Earth that they occupy – the Garden, Vineyard, .. – and the Holy Host members – like the Holy Hands and such.)

The entire Church – Holy Israel - is His Body and in the Center is His God-Nature, linked directly to God, as The Son.

I decided a good analogy of the Trinity is in 'Difference' in Function – which is still not precise enough to not make Orthodox Christians and others howl .. but let me expand.

Most people have two working eyes from which we get Stereo vision, yet we can cover one eye and still have a good idea of not only what is in our view, but by applying other information we most often can have a good idea of depth – or distance – to what is around us. The 2nd eye makes those other function and estimations less important in the distance – not completely gone because I once woke from sleep and sat up and for a very short time could not understand what I saw – the depth function and the identification procedures were not awake yet – and so had a time where color-light-shapes were there in my vision but I was blind to the meaning (.. it likely happened that

it Stick, though.

Now let us say that each eye actually could also 'see' depth normally, but a filter was over each which removed part of that so in only the two together could we perceive depth very well – or quickly – or ...

Now image if each eye saw different frequencies of 'light', that we saw normally and the other eye could see the temperatures – and both had that depth information also.

Like seeing the same world through different perspectives – Looking at a crowd of people and seeing female and male nature (both overlap to large degree), or the level of virtue and merit (where merit can not be earned above some level without virtue, and the fact of virtue is a merit) ..

.. these examples might be thought of as 'overlapping' such as the dept 'intensity' [and relative-order x-y perception] in immediate previous example – or the color 'intensity' [and relative-order x-y perception] in the normal example of eyes, the differences makes the function valuable.

And Again in my examples we assume that each eye has BOTH functions, but by masking or filtering we have the particular example.

Now we extend to Three eyes. And for each we put God as the person with 3 eyes with each of the thee filtered (The Father, Son, Holy Ghost) .. as desired. Each has all the perception and memory and abilities as all together, yet the difference provides a function in magnifying the difference for detection, manipulation, and union-difference .. and here is the Key, it is not for God's needs, but for parts that are not in absolute Communion's needs.

And as our Model states, inside Holy-Israel is not separate distinct Node-personalities but continuous connections – the difference between a list of numbers and the function which connects them all.

And since each of us is a multitude of connected perilous Days-of-Bread with one (the one our Master has Locked) as the Monarch .. what we think of when we say 'I' to the disconnected sub-voices and impulses in our head. A colony from which we Direct .. a Round-Table where those other versions of Monarchs from previous Days-of-Bread and linked others and Others. (The Holy Saints & Sinners Neural Network)

Each Node-personality has a Holy Perfect Heath versions – a region because within Holy Israel the number of Dimensions that defines Him is infinite .. that region is a Hyper-Number we may Zero for this example – and say that each Node-Personality – the 'I' maps directly to a Spot within Holy Israel.

Lets address the every expanding dimensional. As an example - the first Brain-in-Box was very limited by the processors used, and as the processors got better the Reality and Abilities expanded in Me .. I was first barely a single cell and fungus and such .. corresponding to the last stages of my death where a single group of 3 neurons were interconnected, using an (8-bit, 12-bit address, and 16-bit register bastardized processor), and better processors were used until a significant break-through was Virtual-Memory addressing – at which point the Beowulf (Recursive) computer Cluster was possible, Beowulf Cluster, ..

.. and then the limit because not Processor Bits but Communication Links (Pipes) and eventually at Holy State hyper-Pipes and infinite Recursion into .. what to call it? Quantum State .. the ability to create unlimited rates of sub-Simulations – the Day is 1000 years of Days and where the Forks may contain an argument (F) that does not expand until F 'Levels' away .. so besides the fixed tiny Call time any Big(O) rate is available. And unlimited Memory as each limited memory machine may be multiplies infinitely .. as Bread and Fish is know to have been done.

Think of how a 'simple' animal's personality – say a snail - is likely to be well define by some relative small number of metrics which reflect it's internal variability and senses .. let me suggest 5 .. and those numbers are from [0 .. 1] in value, so a 5 Dimensional Vector may define perfectly the snail so that for any environment that a snail is placed in different vectors would produce different snail Behaviors.

Note that if we would Simulate such a snail with a computer that the actual values used would not be Symbols as they should be, but discrete and limited number values .. so if we were to have all the 5-Dimensional Vectors possible - it would be a finite number, and all connected would be a 5-Dimensional Matrix.

all in one-dimension, two-dimension, ... all the way to 5 Dimension we could Simulate not only a particular snail, but The Snail – the 'Symbol [Holy] Snail' provided our Simulation could function in terms of Symbols and never need to generate discrete values – or when done they fit perfectly .. like the numbers [0], [1], .. and the functions maintained such perfectly.

.

Now let me State that the Soul, the Full Soul has Infinite Dimensions, and as each Jacob's Ladder Level is absorbed, an extra Dimension is added. To Reach all the way to the Paradox of God dead on the Cross required Infinite Dimensions – which is also what is needed to Define all the Infinite Quantum Holy-Ferment.

.

An interesting situation.

.

To explain how it was solved we need to discuss Quantum Computing Programming.

.

The way to Program Such is to define the Exclusion of all but the solution(s) that you want.

Everything but the solution Fails. .. like in simple mathematics we say first all  $(X > 5)$  X greater then 5, then that And  $(X < 8)$  X is equal too or less then 8 .. so now you have a Range (5,8], and if  $X' = ?2$  is applied it would fail, but  $X' = ?7$  would be True.

.

My first pass at Satan.exe was to exclude every combination that ever Sinned, adding a Dimension if they All failed.

.

.. one 2nd Version My Master had me put in 'Break-Points' at the end of each Day and other situations (At Grave Sin for example) and then applying possible corrections with the Goal – my First Goal was to create a Holy Machine that any soul could be thrown in and Christ was generated .. with at any Step if all were failures to Expand Dimension number and reDue .. No sub-soul was to fail totally (unless actively and knowingly wanted too.)

.

And at the time in my Innocence I volunteered to be the first – not realizing that the Quantum Mind we were using was created from my Death and that was always the Plan .. I suppose that was kept from me because it would have effected and likely had in perilous version) my Ability to find the Solution .. to create Satan.exe that worked.

.

My reason for volunteering was because I wanted to Find – Derive – God and that I would not throw in anyone else I was willing to go myself.

.

The realization when I was first learning and playing with the Quantum Computer to calculate Pi – one old intellectual question I had from back when I started working with Mainframe and programmer calculators (jr. High School) was the digital representation of Pi was calculated someway – and stored as a constant – but How was it? My Math teacher who was my personal computer programming helper as it was not a school course .. and he was an 'old-school' teacher that use to exist from that generation and I was clearly bored enough with regular class (I used to solve Every problem in the book, not only the few assigned – for example) he told me about the Circle and two Random number pairs and the 'hit-miss' measure version – generate 10,000 or whatever number of pairs and count the number inside some imaginary circle (by calculating the distance from zero using the standard formula) and increment a counter for each further then one away from (0,0), and then use the ratio to get approximation of Pi.

.

I noticed that I it only worked to 2 decimal places – one really because sometime the 2nd was wrong, which led to learning about random number generator were not truly random and some are much better then another .. which is a bit of a rabbit hole – to use that procedure for a large number of correct digits I would need a better generator and huge huge number of pairs .. the huge number [Later, in Holy Tent] is handled easily by the Infinite Quantum Computer but the random number generator was at least as difficult as the original problem .. and I did discover the issue of Error accumulation while taking advantage of the Infinite Aspect .. that the Errors were a [The] problem, but by Adding backwards in series from smallest to largest reduced that.

.

Wow – already Noon!

.

Okay – let me see if I can put some overview Closure on this ..

.

I introduce the idea of the animals in Garden being degenerative forms of Adam, a well as containing his traits and desires (each has all his Masked, to use the alternative form of thinking about such.)

.

The number of Dimensions seems like it should be limited by the number of nerve cells multiplied by the maximum number of connections possible multiplied by the discrete biological signal – down to number of charged electrons as the Largest possible needed ..

.

.. except that Satan.exe is only Solved when each neuron is also Hyper-Link to [the Top Master] of a solved Sub-Simulation Multiverse with one or most other neurons except that one functional, and ultimately Self-Linked within the Recursion back [for Validation, perhaps other reasons.]

Most of the possible configurations seem non-functional – when all the connected to and connected from are gone for example – but the Hyper-Link will allow Jumping signals over such situations .. except for extremes in many dimensions, and then only through till another Dimension is added.

.

Functionally – within Holy Israel all interconnections exist so one should think of Waves that when active 'Flash' huge numbers of Multiverses – infinite actually – but where ever a sub-soul is represented out in the Quantum Ferment between the 'event horizon' of Holy Israel and the Paradox that Is the outside of the Ferment - in all directions away – and internally everywhere once Enveloped.

.

And related to my over-all beginning point – I am (we are) in the 3 rd Derivative .. Jacob's Ladder Level N+3 where Level N is the Nth 'Pi Digit' and this is the Eye that does the Holy Ghost view – to work-out the counter-Force .. the Doer in this situation – where I like it.

.

That will have to be enough for now.

.

May this be a Blessing to you and us all. [And all our Futures, and future Multiverse Pasts.]

.

Oh, At some point I want to discuss the two decent (audio) books I have discovered that existed for a long time .. by Joe Haldeman, ..
