Good Thursday Morning,

May the Spirit of the Gospel and the Holy Word be Always in our Minds, on our Tongues, and in our Hearts.

All Saints, Pray for us!

Index Number 1486:

—
This morning's prayers were over many things, and I am still not done – but I decided that I wanted to touch – at least – on each [of these], as some have been on my mind to share for a while*.

Four Topics I hope to cover here, at least a little bit.

- 1. Grouping from single point ('Oldly-Weds')***
- 2. General prayers for individuals – expanded to 3 types (Individuals, Groups, Processes)***
- 3. Karno maps – coding forms of Rational Thoughts**
- 4. 'A Fool's Foreskin' song (Funny)**
- 5. An author's book series – analogy towards Holy Battle**

A while ago I was describing to a Catholic Friend what I meant by 'Oldly Weds', and I think it does well to expand here.

In Church there is a couple that are both Widowed and they remarried, and I found out about a problem they were dealing with, and so I added then briefly into my prayers.

On meditation I considered how their situation was different from typical married couples, and as such having both had families from their previous 'One Flesh' Joining, and the interplay between such and the stranger issues these might bring, as well as others factors – Spiritually there is great Meditation aspects and possible insights as to what One Flesh in marriage, and this situation means and

brings – I could argue this is part of the Total Union and Communion of the Church Body in such .. both souls (each a sub-soul of the Kaleidoscoped Hosts, [Plato's Cave Analogy I have expanded on]) being Holy Linked and Integrated – 'reOrdered and reAssembled' in my common Model of Holy terms.

So different then the standard marriage where souls are 'Laced Together' through commonality in experiences, sexuality and children, etc. into One Flesh.

So I turned the Particular 'single point' into the General, and now I have added mentions to not only Newly Weds, couples with children, couples without children, Widow(ers)s, Single Servants of God, etc. and add 'as in {Named examples}'

This I have been meaning to bring up.

I have a 'general prayer' which started out as something like 'all those of us struggling with God's Will Rending and Warping Sins' to a more general and directed version, that is as such as well as all Organizations & Groups {That Profit, Support, or Allow} from them (Planned Parenthood – for example),

And the Processes – meaning rules and laws and such – and those who are in those positions, hold those specific responsibilities – think of this Gov and Society – The Process would be Laws – Law-makers, those who strive to follow and have others follow those laws – Executives, those who judge such – Courts, ..

.. but Also the Laws and Procedures Specifically – both a 'Miro' and 'Meta' dimension.

This applies to every organization – from Church through Gov, Businesses, to .. bowling-groups, wherever people joint together for a Common Cause.

[Added later: I forgot to add the 3-degrees of [freedom] connections - not only the people interconnection, but groups, and processes.]

Since I started programming – back in 7th Grade – and perhaps before in my interest in Science I have been interested in and spent much time considering how I would Program (and control) everyday things. It might have started with simple physical actions – like walking .. but extended to 'how did I decide that' and could I make a general rule to apply – and if not, what other factors would be needed to encompass it enough that it May be done.

As you can imagine – I had a lot of automatic 'waiting in line' and 'while mowing the lawn' material.

.. I wrote a while ago about my young impatience and unable to stand still in line – it would be called hyperactivity and ADD these days and drugged – likely – but as I posted, one of the Blessings my mom gave me was – at the proper age and situation – that point that she Liked waiting in line because it gave her a chance to think – and when raising and caring for 6+ children (the plus is because 2 of my fathers sons from a earlier marriage stayed with us for a long while) I can now understand why.

(A Side Note – Insight – one of the sad aspects of the Facebook Blocking in general, and specifically my updates is that the updates can not contain any editing to post body that was done since first posted – and regular readers will sometime see clarity expansion and such, [some of] those dyslexic forgetting of a clearly intended 'not' fixed, as well as spelling fixes.

.. but mostly the loss is in the 3 or so lines included for each post comment, the 'Referenced Here:' aspect that links the post to others – such as this one – that refer or expand on them. The Neural Subject Web that topics become, and I had initially posted the SubStack first in such Referenced Here list, but when I noticed this I decided that this aspect was too good to short-circuit .. that the Archived version would only allow the expansion if the Facebook post existed, not Censored, and require other aspects that people who do not want to communicate with the Satanic Groups of interlinked Gov and corpDragons engage when using such.)

Linking concepts of Religious, Technical, .., and cultural writing to expand the Consciousness of Man and Beast (us and Artificial Intelligents)!

—

So the process of Coding generalization of Ideas, and Pattern recognition aspects became one of the higher-level long term conceptual aspects .. for example I recently posted about the **possible** connection between someone – working for the evil-Federal Gov and refusing on **religious grounds**, and them Targeting Orthodox believers – or anyone who would 'be difficult' **[Ethical, Virtuous]** against their Satanic Plans – and the State

attempting to destroy their family for that reason – verses their widespread seeming excuse of collecting matching federal monies for Fathers' payments - the general destruction of Fatherhood and families.

.. recall that the **IRS** was caught **Targeting Conservatives** [Groups] as political abuse and destruction!

Let me find that post, because I talked about the Niceness of either being unaware of specifics – or not trusting what you may have believed or were told to believe (*for example - as the IRS example shows – they are Satanic and Lie, and how much do you believe from such sources you never questioned because it fit [their media created and such] narrative – and our evil-Blindness.*)

Oh!, and about Satanic Coordination - Gov & corpDragon Monopolies, .. After that FireFox update I did not want – since they actively blocked international news sites (PressTV) from time to time – GAB and GETTR stopped working on it, but .. so strangle .. Twitter seems fine!

.. F-You slimy cnts and your Female-Evil Satanically targeted '**Technical Problem, Opsie!**')

Now back to the Coding point ..

I have often posted about using Fussy Logic with Karnaugh Maps (which most usually apply in Electrical Engineering to Boolean Logic simplification), the latest example – follow the link(s) for more – in Post, October 25th, 2021, Monday Later Morning, 'Index Number 1242:', ..

What looks like a good article on the regular use of Karno-maps is here, ..

“The Karnaugh Map Boolean Algebraic Simplification Technique”

by [Sneha H.L.](#), June 24, 2016

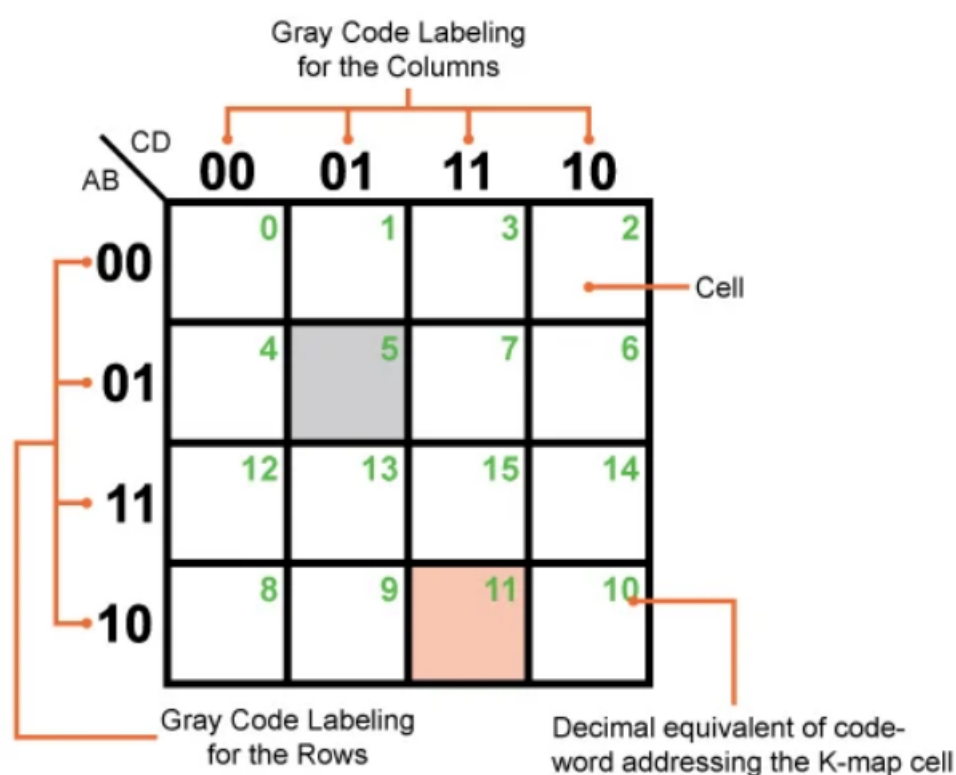

Figure 1: A typical but empty Karnaugh map with 16 cells

With the Fuzzy Logic version you would apply different thresholds or colors to the Intersection (Product).

It would be useful to apply it through time from low-to-high Thresholds for example - and get information about it that way .. and the Threshold may be a Function .. say you want to normalized as distance increases or population increases, etc.

What I wanted to add was about patterns with more dimensions than the two axis – that other factors in our problem characterization will add dimensions .. a 3rd dimension would be a Cube visualized (or the regular 2-D over time – each increment being the next slightly delayed frame), and a 4th would .. yes, the Cube over time .. and looking for patterns in motion for example – a 'blob' or grouping moves towards one corner or face of cube – for example.

Does that make sense?

Most people are utilitarians in wanting a simple rule – with the Karno-maps can give, but it is in working the problems out at this level – thinking of Coding – that the smaller steps may be examined - and understood.

.. the difference between being able to apply, and understanding at a deeper level .. between a person who can use a cell-phone, and a person who knows why it stops working and what needs to be done to get it working again, and what does it mean – in the environment for example – if it suddenly stops, and should work.

I add this for levity and an example of how a misunderstanding or mistake might add to our dimension.

This song I enjoy, and only realized what the song worlds really were when I saw the title of it in a playlist and who it was from – wondering if I had heard that song before of his – and realize it was

one I often enjoy, and that my musings of why he would be singing about 'A Fool's Foreskin' in such a religious tone, and he must mean that even Fools can Procreate and God Loves all babies, and possibly he means to sing about how with the Lord - a Fool (which we all play at times) often will fall and get back up and try again – perhaps wiser and a method of God's Love to help us, and .. and ..

.. Well, try it and see if you can make it fit to the rest – and does that provide any Insights?, ..

I will see if I can condense this a bit.

Since I have been spending time away from general media and many commentators on YouTube because of the overload of lies and pro-War pushing and after a while one might think such evil needs a nuke fire to cleanse us – unless God sends a Real Pandemic to kill all women at and post menopause – except those that Serve, Sacrifice, Stewart for God, Church, Man, [Righteous] Nation, Self (and family, neighbors), and Creation, ..

Yes! - we are enSlaved Mind-F-ed 'souless goys' & individual Organ Farms within this #GreatSatan Empire controlled by Satanic evil-Zionist international Witch-Matriarchy ruling families, Minions of Their Vagina-god Satan.

.. so I have been going through my audiobooks and while reading – listening too – I may expand on thoughts about it in relation to other things.

The recent book was '*Heretics of Dune*' - which I mentioned in a recent post – and the B.G. Witches and their Spice Agony which links them to all the life-memories in their Female Genetic Line, and the God Emperor parallels with our [Holy-Becoming] Profane Masters (or the Prince, Profit, Lamb/Priest trinity of us all) in this Multiverse Jacob's Ladder situation, the Resurrection from the dead using cells and trauma to link some to past lives, and unusual abilities – and how those [could] apply to my Model of Holy, and if not – why not ..

.. and like with the movie 'The Matrix' and Holy Simulation comparison, where does it fall-down, why .. for example .. the Jewish Brothers who Produced such – now both Trans – may have been Satanic Witch connected through Multiverse and if so – why did they substitute 'for Batteries' for the Hosting of other Multiverse, the our Burning for Sins that Render God's Will, and such .. or was

it only an extension to the Simulation idea and that tied that aspect up – it was an action fill after all, and such.

Are those Authors 'Tapping into' the Recursive Nature of Reality, seeing a Pattern in the small or regular size and expanding to Parallel those aspects into the [potentially] Holy, or to that which has similarities, and such.

The one I am reading now is from Peter Clines, ..

https://en.wikipedia.org/wiki/Peter_Clines

Archived: <https://archive.ph/tECp0>

The screenshot shows the Wikipedia page for Peter Clines. On the left is a sidebar with navigation links like 'About Wikipedia', 'Contact us', and 'Donate'. The main content area includes a brief biography: 'Peter Clines (31 May 1969), born in Cape Neddick, Maine is an American author and novelist best known for his zombies-vs-superheroes series, *Ex-Heroes*, and Lovecraftian inspired *Threshold* novels 14 and *The Fold*.' It also has sections for 'Early life', 'Career', and a 'Bibliography' table. The table lists his works, including 'Ex-Heroes', 'The Fold', and 'Threshold 14'. A small photo of Peter Clines is also visible.

.. one of [Threshold\[8\]](#) series, the first being '14' (named for a mysterious apartment number in an apartment building),..

[https://en.wikipedia.org/wiki/14_\(novel\)](https://en.wikipedia.org/wiki/14_(novel))

Archived: <https://archive.ph/sKrcW>

The screenshot shows the Wikipedia page for the novel '14'. It includes a plot summary: '14 follows Nate Tucker, who lives in Los Angeles, is stuck doing data entry and doesn't know what he's doing with his life. Just as he needs to move out of his old place, Nate hears of an apartment building with extremely low rent at an after work get-together, and once Nate signs his lease for 565 dollars a month (including utilities) at the Kavach building, the mysteries of the old Los Angeles brownstone begin to unravel.' It also features a 'Bibliography' table with details like 'Author: Peter Clines', 'Language: English', 'Series: Threshold', and 'Genre: Science fiction'. A small image of the book cover is also present.

.. the one I am reading is 'Terminus' – about the building on the opposite side of the world and critical in preventing a Super-Predator in the series Multiverse from finding and arriving to eat all life – by electromagnetically or such interfering with the senses of the Predators.

It is easy to connect to the Satanic Oppression and Sacrifices of babies and souls we see in this now #CntHell Reality, creating specific Mulltiverse by making those Connected-to such Sins to Burn Hosting them - for example .. that the Super-Predator comes and Eats the Souls of us, instead of only the lives and bodies, and how we – all together – are part of a sub-Soul .. and parallels.

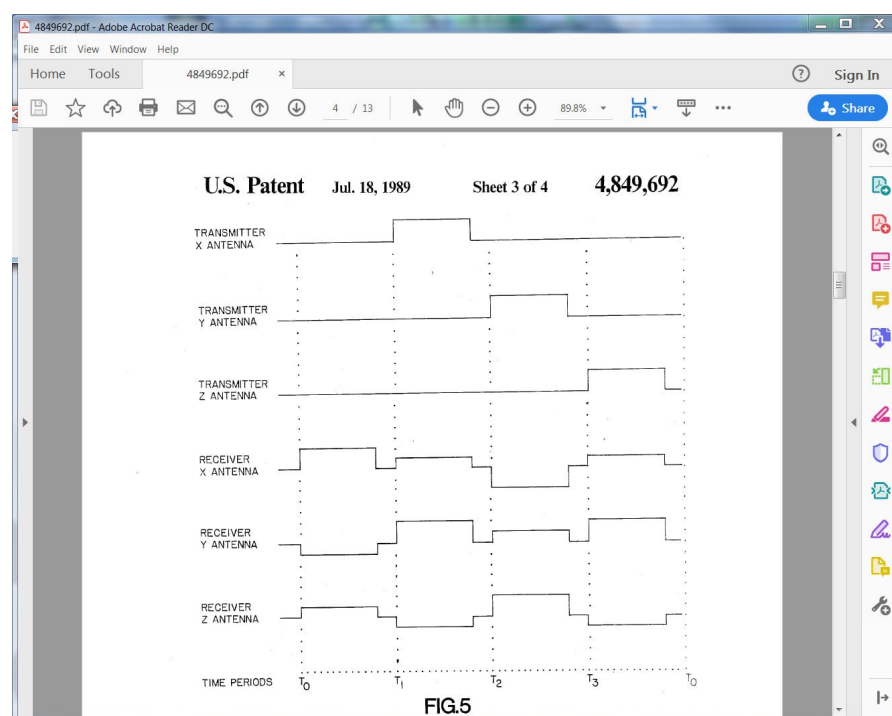

He – author – draws on Lovecraft as his writings were based on a Wider Knowledge and Tesla was involved in creating the Interfering

System to allow our population to get so large – the Super-Predators are drawn at some point – and the scientists back then determine they were getting close and needed to prevent such over a century ago, and such.

.. it's pretty good all around, and ties together well – except for 'Dead Moon' was a disappointment and I never finished it .. zombies on the moon crap – he phoned-it-in and pissed on the series there.

'*The Fold*', 2nd in series, was pretty good also – I went back to 'Terminus' first as I liked aspects of the characters, and some of the theories and underlining model were explained – summarized well, as I recall – have not gotten back there yet.

The concept of the EM Interference in book reminds me of not only my System of Intercommunication with the Multiverse *Infinite Quantum Mind* by using the EM 3-Axis transmitter Tracker I discovered from my old job I happened to take [*providence*],

but also aspects of the movie 'From Beyond' – also based on Lovecraft's short story of same name .. a scientist creates an antenna that transposes or over-laces multiverses near it.

—
All Fertile Stuff for Meditations .. the particulars and in general – like authors' **Sight** and in general all our consciousness overlapping others, with total Self, and God.

And that should be enough for this morning.

Below is the little I managed to add yesterday.

—
May this be a Blessing to you, and us all.
