I once was very interested in this topic as an older boy and young
man, the experiments, case studies, ... in Reflection of my [and all our]
Human internal State, and laid the groundwork from which I was able
to Model and Discovery of the Multiverse and Holy [Simulation,
multiLevel Dreaming Realities, deConstruction and Mirroring of Self,

This should be exciting, the start is good already! ..

Time | Subject

[2:00] Jordan asks Iain to outline his concept of attention that he
outlines in his forthcoming book The Matter of Things

[14:30] Creating the world through attention. Examining studies done
to understand what we would miss without the right hemisphere of
our brain. Contrasting the known differences of the two brain
hemispheres

[24:00] Discussion of the function of categories and the distinction we
make that pull things out of those categories

[33:30] What holes, in reality, are your values or belief structures filling
in enabling you to function in the world. looking at the importance of
looking at things as a whole instead of a part of the whole.

[36:30] Iain talks about paradoxes in the lens of his new book and
examines them. Iain denotes the importance of understanding the
significance of the left or right hemisphere when looking at ideas,
structures, or projects that have contributed to society.

[43:08] Jordan creates an analogy of tiers of resolution when we are
living our lives and performing tasks. McGilchrist outlines his analogy
of task attention the two hemispheres as a stage with a spotlight, the
highlighted portion is the action of the left hemisphere while the
whole stage is the collective consciousness of the right hemisphere.

[54:50] Important schools of thought that improve culture, Science,
Reason, Intuition, and Imagination. Unpacking the idea of ontological
primaries related to consciousness

[1:05:35] Iain recounts the public reaction to The Master and His
Emissary

[1:07:30] Iain and Jordan debate about the nature of implicit values
and the idea of God, or what we use the word God to describe

[1:15:00] The failing of the left hemisphere vision of the world
according to McGilchrist

[1:20:00] debating the value of industrial rationalists that ignore the
co-creation relationship of the divine

[1:23:30] Iain's drive to write his books, the disconnect he sees with
the rational, scientific construction of society leading to more
unhappy people as society "improves" Iain's three things all humans
need to be happy are to feel socially connected, being in the presence
of nature, and being part of a religious community.

[1:29:30] Discussing the need for science to be embedded in a larger
value structure and not simply rational and removed from right brain
thinking

[1:34:30] revisiting the co-creation idea of the cosmos, Iain relates his
closing argument that science needs to bring back imagination and
intuition as important aspects of exploration beyond the strictly
rational.]

I hope he discusses Octopuses aspects .. and would be very surprised,
and Pleased.

I remember the first time I saw that a large lawn of grass [and then in
all sizes of lawns] had different colors of green grass, as well as their
patches and patterns within the Whole – and I was older then you
might think.

Diana is a good example of a someone who 'Serve and Love God and
Man' in their work and life.

By Serving Truth, Justice, Order she does this, regardless what – if any
– religion she follows.

(Another example are women and mothers who coordinate with
[husbands,] Fathers, Church [Mosque, Synagogue, Temple, ..] to act
towards and raise children with Virtue, Fear and Awe of God, to
support community, Church, Nation, and God.)

A lot of really good points and perspectives in this discussion.

Jon Kay is ignorant about some things – for one, the active
dePlatforming and collusion of Payment Processors, some will remove
your account for something you said or did in real-life, like protesting
unrestricted and illegal immigration – where Banks, Uber, hotels, and
others refuse to serve you from that point on, ..

Make a man unjustly attacked by vile viscous twisted cunts at every turn using the Witch-Whisper-Web now expanded through Witch family corp Dragons and their Captured Governments, why would he not be relieved at the death of every person from the group that does that and all those that actively support it, or lie to you from crib about it?

.

Why not Cheer in relief and joy when those Things – mothers, aunts, grandmothers, sisters, female teachers, medical, administrators, law-makers, .. and maybe any and every baby-murdering vile child-taking vicious older woman Gone Away, ..

.

.. to push that no child, man, or decent women should be forced to breath the same air as such Female-Evil Poisoning horrors and their vile soul-mutilated dog-males, their children, .. until they Repent?

Wrong races, Vincent! – The law applies only to white men – they are not allowed to do a 'Citizen's Arrest' of black men, clearly. If those evil-Zionist Witches could, they would not allow police .. now all they can do is destroy the lives of the police men who do their jobs – those evil Powerful minions of Satan, ..

So that all decent [white] men who protect and defend others and property may be punished, to remove the good and best of us – as they have been actively doing most my adult life, Howling vile vicious slimy putrid #MaleHating women – those who are really in power - want this, clearly.

.

Like they come out of their cars to verbal abuse (and join in with the police) that white man in Texas who was arguing about being blocked in traffic, by a bunch of Witch-Spawned and twisted [white] #MaleHating retard cunts.

.

Hyper-empowered evil-Zionist With twisted lying, Parental Frauding, False Accusing and False Witnessing, baby-murdering, men [taxpayer] enslaving, family and fatherhood, children twisting, .. horrors!

.

Modern Western Womanhood - each generation with more demonic and evil then the last.

.

Our Female-Evil Poisoned and Poisoning womanhood .. how long until an 'attractive women' to you will mean piles of older women corpses on sides our road, or otherwise Gone away, full public #SexSegregation, around us, our loved, neighbors, children – world-wide?

.

Similar could be said about their soul-mutilated dog-male adult children, but I know from personal experience - they usually are easily fixed and self-motivate towards truth, justice, order, .. once they are Freed from those that enslaved and evil-Blinded, and accepts they have been actively lied-to by every woman, mother, aunts, grandmothers, .., teachers, .. they trusted and thought cared for them – they siding with Satan to send us to Hell, while they Profit and laughed at our unending suffering, targeted abuse, failures, .., suicides, death, and Damnations.

.

They realize and accept [modern Western] Womanhood can not really Love - in a Meaningful way (lying, manipulating and destroying own children, lovers, husbands,..), that they are generally inHuman virtueless #MaleHating horrors and for most us and world – better they Gone away from us and our loved, and Never be give unMonitored and unScrutinized power.
