Good Tuesday Morning, 3rd Octave of Pentecost

May the Spirit of the Gospel and the Holy Word be Always in our Minds, on our Tongues, and in our Hearts.

Holy Virgin Mary and All Saints - Pray for us!

Index Number 1550:

In this morning's prayers & meditation I became Aware of something that reminded me of how unobservant I can really be, among other meditations and consideration.

Before I go into that, I will mentioned that I once again considered the Abraham's Sacrifice of Isaac, ...

The screenshot shows the Wikipedia article for "Binding of Isaac". It includes a table of contents, a "Biblical narrative" section with a quote from Genesis 22, and a "Jewish views" section. There are also several small images related to the story, such as a painting of the sacrifice and a map of the location.

DropBox: <https://www.dropbox.com/s/kk2i0c9nuc2499r/Binding%20of%20Isaac%20-%20Wikipedia.pdf>

.. in terms that like with God and Cane – that Cane did Die and was used to Host those Realities involving a world full of people with sins that reflect his – that Isaac WAS sacrificed, and we all living Under and Through him as the Hosting Isaac (and the 'Client' Isaac within) Under and Through.

The Artificial Intelligence Trolley Problem

You've been replaced by a fully sentient robot you have designed

You've been rejected by a fully sentient robot you have designed.
 Would you still being held morally responsible for the outcome of the situation?

I was considering the difference between the Sacrifice of humans and animals, and the Values and Effects to us .. animals in terms of what we eat (those raised in constant suffering and pain in factory-farms, or in fields and at peace) and in people – Isaac being seemingly a more pure soul than Cane who had Grave Sin, and of course Jesus with no Sin.

What effect on human ability in the Sacrifice of Animals in the old Jewish Rite – was Isaac Required to be more fully Human, and had he never been (as I argue he WAS) would we all be much Less capable of human and soul?

—
 Back to my Surprise – I was almost as shocked as the fictional characters of Lois Lane (or Jimmy) – if released from their Witch Spell of Blindness – and first they saw Clark Kent without his glasses and it suddenly dawns on them – Superman had been before and near them all along, and it was his active disguise an distractions which hid him from them – his obvious clear intelligence and manipulation – which required a depth of understanding not only of human nature in many aspects – but to be so close and still disguised required a Theory of Mind and very good understanding of them both and the others to somehow stay in the shadows of awareness.

.. Although the 'superman' I spotted is not a superman with superpowers – unless you consider being able to hide such a huge secrete in plain-sight a superpower – which it effectively is.

Amazing. So much better at it then I was – clearly. It was the parallels to a young version of myself that opened my eyes.

.. the question is if I can help this man as I believe he needs – having likely been emotionally and mentally crippled by his mother and likely older sister, grandmothers, .. a real vile cesspool of evil male-hating Witches who saw his greatness and – like in many families that are a secrete Matriarchy, any male is destroyed if not completely hobbled into submission early and regularly.

And no doubt filled with self-loathing and trained to turn every negative reaction from any women (or anyone) into conformation that he truly is the Monster the Satanic Horrors that raised him and told him they cared and loved him, yet destroying his mind and soul.

So, he is sure he is a Monster and so much use that amazing intellect and understanding to stay hidden and ineffectual. .. so good at it! He is truly amazing – and I would add that given I am almost sure of the situation – in a Just world all the older women in his family .. well, they are clearly evil and I do not mean 'functionally' like some accidental evil that many of us trained from birth to be, but hideous nightmares that for public good should be recognized as such, as well as all others connected in positions of power that were not active in helping him.

In a Just reality that had a #PublicDataBase I would be able to track down all those significant women and attach Records arguing of their putrid vicious Satanic history of abuse and evil, and we all

would be safer – because anyone connected to them and did not act in caution and badness resulted would be directly responsible and possibly could be accused of intentional evil and intending the bad results, and such.

—

The important thing is how could I possible help this self-tortured man?

.. because in his mind anyone who abuses him or treats him badly would only be doing what is right, and those that try to befriend or help are only ignorant to his Monsterness – and he will not want closeness .. or such will be seen (and if not then it indicated a stupidity or such from them.)

And since the roots are in family and mother/sister /aunt/grandmother 'love' and connection, that Start of his unChaining is an understanding that to a Just Society and the people in them – they are barely human – dangerous vile evil horrors that a person who had no choice – and since our State supports such evil horrors – between killing them and letting them continue to hurt others, the seemingly Right choice is to kill them all .. hopefully in such a way that no one else gets hurt including yourself.

But Since God Demands Love, not Death, .. and Better from us all – that relatively simple option has been removed.

.. and his awareness - unchaining - will require him to get through that point himself .. a dangerous step because such a man is demonstratively intelligent enough and skilled enough to be so very dangerous – and that is part of what the twisting was from the Witches – 'oh do not get upset because you will surely hurt someone [you love]' my older sister would torment me into near physical violence and then her and my mother would use that to hurt me, and my image of maleness and manhood.

—

I do not have to go into the schools to know that is exactly one of the horrors they are doing on mass – putrid vicious slimy horror women all working together to torment and encourage such reactions and with likely many of the girls groomed into those rolls (and those teachers and administrators were by their Witch horror mothers and the Satanic horrors women in the horror of their lives.)

I am so glad I got a glimpse of him 'without his glasses' – and that I have what must be a very similar background.

—

I fell in the classic trap many intelligent people fall into – and was amazingly Blind. Makes me wonder how many more I have missed.

—

Something important to consider – which must be addressed to promote personal to world-wide & Future Truth, Justice, and Justice., ..

Once you digest the above topic about 'Good Faith' the following is **clearly a war-creating bad-faith Actions** by and from NATO and this #GreatSatan Empire.

These two articles' subject (and video) subject are barely being covered in the Western Media I review, and I would use in this vile #cntHell to threaten Nuke war over .. first by flying him over anyway with armed fighters, and if a problem then nuke the home of the leader in that nation, while being prepared to kill us all – because in a vile hate-ruled nightmare where children are separated from fathers then perhaps we all dying – vomiting our guts out – is an option to put on the table.

.. and F-you if you can not understand .. I suppose we will meet in Hell - you vile horror.

This sounds like a Software application for writing I will have to try.

I purchased a subscription based on this conversation and my trust in Jordan Peterson's education abilities from his incredible hours of content I have reviewed and learned from, and stimulated by, and sometimes Justly objected too, and what seems like a competent reproduction through his spawn of much of the principles he has discussed previously related to the subject Codified in this Product.

And if you value sense and making an effective difference in your and all our reality and Future, and do not at least try their free week trial and have or can prioritize to make time – then you are an idiot.

I recommend that they make a video on not so much how to use, but actually using it – write something out-of-the-blue and go through how it reShapes .. a simple 20 minutes to 1 hour on something. Bang out a first pass – then ...

Need an assigned Essay? ..

Is it because they are human and sometimes a bit retarded .. like us all.

Peterson's comment to Dawkins in their 'debate' video I included and wrote about in a number of posts – his comment about the debate she got involved in about diet-meat or such has put in my mind to try to dig-up what I could of it for review. On the side .. his daughter has enough of what I think of as the classic attractive Jewish (Semitic) woman's facial features – not over expressed - that I am now assuming his wife is Jewish, or they a little each .. but the wife being Jewish might very well 'fit in' on Peterson's staying power, and his evil-Blindness one the clear evil that womanhood is pushing, and a number of other things – an intentional or unintentional Witch-Handler roll from her is likely – and that is to say that it is not that they do not have a great relationship – it sure sounds good and resilient – but Vagina-god Satan following and controlling people can play the 'greater roll' while believing it fully – in fact most of evil is pushed under such Delusions.

I am including this mostly on the chance that the future Multiverse Past's to realize about the data on Star Betelgeuse's Dimming event, ..

https://en.wikipedia.org/wiki/Betelgeuse#2019%E2%80%9320_fading

Archived: <https://archive.ph/toOXX>

2019-20 fading [edit]

A pulsating **semiregular variable star**, Betelgeuse is subject to multiple cycles of increasing and decreasing brightness due to changes in its size and temperature.^[14] The astronomers who first noted the dimming of Betelgeuse, Villanova University astronomers Richard Wasatonic and Edward Guinan, and amateur Thomas Calderwood, theorize that a coincidence of a normal 5.9 year light-cycle minimum and a deeper-than-normal 425 day period are the driving factors.^[15] Other possible causes hypothesized by late-2019 were an eruption of gas or dust, or fluctuations in the star's surface brightness.^[16]

By August 2020, long-term and extensive studies of Betelgeuse, primarily using ultraviolet observations by the Hubble Space Telescope, suggest that the unexpected dimming was probably caused by an immense amount of superhot material ejected into space. The material cooled and formed a dust cloud that blocked the starlight coming from about a quarter of Betelgeuse's surface. Hubble captured signs of dense, heated material moving through the star's atmosphere in September, October, and November before multiple telescopes observing the more marked dimming in December and the first several months of 2020.^{[17][18]}

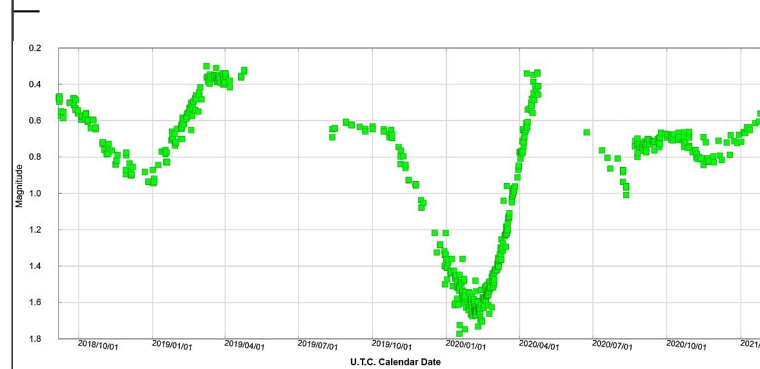

By January 2020, Betelgeuse had dimmed by a factor of approximately 2.5 from magnitude 0.5 to 1.5, and reported still fainter in February in *The Astronomer's Telegram* at a record minimum of +1.614, noting that the star is currently the "least luminous and coolest" in the 25 years of their studies and also calculating a decrease in radius.^[19] *Astronomy* magazine described it as a "bizarre dimming"^[20] and popular speculation inferred that this might indicate an imminent supernova.^{[20][21]} This dropped Betelgeuse from one of the top 10 brightest stars in the sky to outside the top 20,^[21] noticeably dimmer than its near neighbor Antares.^[21] Mainstream media reports discussed speculation that Betelgeuse might be about to explode as a supernova,^{[17][18][22]} but astronomers note that the supernova is expected to occur within approximately the next 100,000 years and is thus unlikely to be imminent.^{[18][23]}

By 17 February 2020, Betelgeuse's brightness had remained constant for about 10 days, and the star showed signs of rebrightening.^[24] On 22 February 2020, Betelgeuse may have stopped dimming altogether, all but ending the dimming episode.^[25] On 24 February 2020, no significant change in the infrared over the last 50 years was detected; this seemed unrelated to the recent visual fading, and suggested that an impending core collapse may be unlikely.^[26] Also on 24 February 2020, further studies suggested that "occluding 'large-grain circumstellar dust'" may be the most likely explanation for the dimming of the star.^{[27][28]} A study that uses observations at submillimetre wavelengths rules out significant contributions from dust absorption. Instead, large starspots appear to be the cause for the dimming.^[29] Followup studies, reported on 31 March 2020 in *The Astronomer's Telegram*, found a rapid rise in the brightness of Betelgeuse.^[30]

Betelgeuse is almost unobservable from the ground between May and August because it is too close to the Sun. Before entering its 2020 conjunction with the Sun, Betelgeuse had
