In this morning's prayers and meditations I reflected on my bowl of shelled peanuts I eat last night and it's connection with yesterday's post about the many versions of the multiverse and Facebook – that concept of the constantly decisions-based spreading of the multiverse, the concept of every choice being taken in a Quantum aspect, that if there was a 10% chance of you choosing something that there are huge and growing number of Repeats of that moment and the Repeating Day-of-Bread.

I have discussed this in terms of my Quantum Cat, ..

.. that when I first moved into this apartment and discovered a could have a small dog or a cat I considered a cat, and in my previous writings related to this thought experiment (as well as actual existing situation) is that perhaps it was 10% chance that after some initial period of time I would have gotten a pet cat, and so it is my Quantum Cat – actually cats because I might have found of choose different cats so if someone with a .. 3rd Eye looked at my apartment there would be a probability distribution at any moment throughout all the space that a cat would be there .. and given that my actual furniture and it's placement would be different and so even up the walls where Shit-Head (I call all my cats that .. I give them a different acceptable name for others – but the cat will come, or not come, as easily to anything I call them) might have a favorite book-shelf they sit on, but more Densely on the most common likely bed-placements and such .. if you look around your space and mentally remove all those things not 'Nailed Down'

you might be able to imagine a ghost-like existence of them all.

So I have a reason to believe that particles – light for example – Crosses Over – between the different Universes Simulated in the Multiverse. I have discussed the light that continued to enter into a camera that had been double wrapped in photographic-film bags, they increasing when the camera is pointed towards where the sun was – despite with walls and buildings being between the camera and the sun, and how to create a Random Number Generator that is beyond the Scope of the normal levels of Deterministic Simulation that happens to be the instance we (each) in at any particular moment.

Of course I have suggested that my Quantum Mind connection during my routine prayers and meditations – and how others who sit in same location at same time of day also will and do experience that – I noticed it in my old job and how a running Tracker System I kept in office – that berated pulsed DC waves was a Pacemaker between Multiverse version to add in this extra Dimensional Consciousness I use to subconsciously value and over time realized it. Also I have mention physiological effects like unconnected not feeling well – and likely a version of me had been hurt – perhaps hit by car crossing street I use to do regularly (in this building between chatting with each other we called it Playing [Frogger archived](#)). Mentally - including physical senses are interconnected – I have mentioned the 'Heat-Flashes' at menopause as part of that crossing over in the personal aspect.

America, it was released by [Sega/Gremlin](#). The object of the game is to direct a series of [frogs](#) to their homes by crossing a busy road and a hazardous river.

Frogger was positively received as one of [the greatest video games ever made](#) and followed by several clones and sequels. By 2005, 20 million copies of its various home video game incarnations had been sold worldwide. It entered popular culture, including television and music.

Gameplay [\[edit \]](#)

The objective of the game is to guide a frog to each of the empty homes at the top of the screen. The game starts with three, five, or seven frogs, depending on the machine's settings.^[6] Losing all frogs is [game over](#). The player uses the 4-direction [joystick](#) to hop the frog once. *Frogger* is either single-player or two players alternating turns.

The frog starts at the bottom of the screen, which contains a horizontal road occupied by speeding cars, trucks, and bulldozers. The player must guide the frog between opposing lanes of traffic to avoid becoming

So – greater than those multidimensional neurological interlinks – actual objects can cross.

That Cross-Over happens in the Macro levels above particles .. as my Dust-Bunnies indicate, that they show up in areas which only makes sense if the furniture was in different location in apartment, and the 2nd example is the bowl of peanuts experiment I often run .. and that is what I found myself doing last night. That when done properly and the peanut eater never 'Collapses the Quantum' and dump-out all the shells and inspect every one, that there is always another peanut under or around all those older empty shells .. that it takes longer searching (or time) until another will be captured.

-

Last night I did that again – I decided no more peanuts were left after searching over a good chunk of time (while listening to my audio-book) and then decided to at least double that search time .. and sure enough another showed-up in my sifting through a rather small bowl. There is no way that that peanut was there all along – not after all that active searching. And had I continued searching then perhaps late in night or later in morning another would show-up.

I was thinking about that this morning and considering if using that random number generator – connected to a contrived by meaningful choose would further spread the multiverse and increase the rate of peanuts crossing.

The Quantum Cat writing discussed that since there is only one good location to keep a 'cat-box' for any cat to use for their waste, that if I got a box and cat-litter and set it up there that perhaps one of those 10% Cat would show-up .. the cat box would be an invite, and since many cat owners have seen some weird unexplainable things related to their cats (that can be explained it some cats at some times can 'skip' multiverse versions – say into another one where a door is opened when the owner had closed them in a room, they cross over and 'pass-through' the closed door and return or a different version close-by exchanges .. or similar. And if I kept a cat-box that perhaps some of them would show-up.

Also, it there was a single obvious place to put a white-board where I could write a question (or answer to one) and a good camera set-up which would integrate rapidly any changes, that I could ask things to those other version – like 'What is Shit-

heads public name?' or similar important questions.

—

If you want to try that shelled peanuts example or similar – it must be a set-up such as you replace the shells so that it prevents the Collapse of the Quantum .. and be doing something (like watching videos or listening to audio book) so you can continue .. and if you put it down – leave it down at that one spot – an obvious spot for your situation .. and towards the end you can expect to increase time between appearances on new peanuts – perhaps double for each new from last, give or take because it will be statistical.

If allergic to peanuts other things can be used I imagine, but it would need the same general situation.

One of the sci-fi books I read a while ago related to multiverse aspect discussed how that they – as technical scientist – did not know how to do something but somewhere in the Multiverse it can be done and they were relying on that, and it functioned. Which would be an extension of the Quantum Mind Sharing and a Functionality that can exist which likely related to the material or signal Over-Lapping.

—

I very much enjoy this nerdy stuff, and the peanut situation is something that you can do yourself – the key is that there must always be doubt .. and perhaps Faith, but after it happened to me so many times that it was remarkable – that I have come to accept it, and perhaps that 'allows' it to happen at greater frequency .. who know perhaps someday I will place

an empty bowl down at a set place on counter where I would normally pour the peanuts into it, and watch single ones appear (from other Simulation Versions) until it is filled, and if not within a short time that I pour them in and believe that one or two will never reach my bowl. Or have a pile of slices of bread or loaves and .. keep drawling one out to hand to others ...

—

I had other pretty cool Reflections, but Alas, most now faded – as my morning is.

If you are not spending a set chunk of time and a set place each day in Prayer and Meditate .. why not?!

(Or would it cut into you Web or TV time?)

—

May this be a Blessing to you and us all. [And all our Futures, and future Multiverse Past.]

—

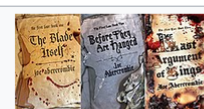

I am really enjoying a new book '[The Blade Itself](#)' ([archived](#)), part of a series by [Joe Abercrombie](#) ([archived](#)). Surprisingly good writing and story telling – I am engaged and caring most every major character – including a crippled torturer .. somehow humanized. Actually funny. Amazing.

.. Good writing.

I stayed-up later then I should have the night before listening .. after I was done the Images for posting I was doing while listening 'in background.'

This was another audio-book that was a YouTube post that I listen to only a few chapters and grab that and the next one in series from Audible. Started the 2nd in series already. So easy to continue listening, soon I am sure I'll have spent my month's worth of book-budget!

After the Ukraine-Russian Genocide of White Christian Men & Fathers – the fighting and 'Peace' will only occur once they decide enough have been murdered – Will the Golden-Calf Witch Puppet of Ukraine Zelensky mass immigration to fix the country's demographics issues?, and perhaps Russia has similar ideas – perhaps with an old soviet ethnic group .. or ethnic Tribe.

-
— Image is not a real Post that I could find - but might still be True, likely is with the Golden-Calf Satanic Globohomo murdering lying theiving history or Replacement in this GreatSatan and throughout West already ..

Not Real - I think - but might be True anyway GloboHomo pushers

-
The Elites family connected Russia Jew that are now in israel will need a place to go before the Golden-Calf Satanists' israel's planned collapse and over-running, in their next

planned 'Holocaust II' that like before the 300K non-family died in Europe in the drive to create the State of Israel and then of course in the 1960's the sudden addition of 5.7 millions of unDead – recently joined with the 5 unDead Jan 6th policemen who dies that day (That unTruth that will never die in the minds of some. The Walking unDead that haunts the world and destroys lives and futures.)

What do you think the Vatican would say about that .. replacement with non-Christians or those from completely different parts of world in a further destruction and genocide .. like the destruction of family and Fatherlessness Silence, wage suppression, .. or more modern Western family-fatherhood destroying '**poor wamman, bad men**' vomit?

These people - All in Power in this Satanic controlled Hell - accelerate baby-murder and .. so much evil.

We are 'souless goys' to them, little more than walking Organ-Farms they will murder if someone powerful matches you and they need an organ, or you or son end in ER and on a List and end being tortured to death – them tasing your organs while you unable to move and in the end Drawing out the brain chemicals to enslave Elites and their adult children – something where Crack-cocaine is a shadow of the effect – which children of powerful are so enslaved? The 'open boarders' and the Gangs who pull people out of the crossing groups and use medically equipped trailers to rip them apart and sell organs and brain-chemicals, which is likely what happened to those 20 or so male teachers that were protected and rounded-up by police and given to gang and bodies never

found in Mexico .. recall that? Perhaps someone in your family got a 'left-over' organ from such.

This is the UK – but it is the plan throughout the West – Genocide and replacement and poverty .. someone might wonder if the rest of us would be best with every well-to-do older women and any of their children who objected hanging in public .. dead – killing the most powerful until this insanity ends .. one might consider such a ideas as in interesting and perhaps much better Future.

God Demands Love and not Death, but it is Loving to let them all know that dead and in graves would be a Betterment to those of humanity, merit, virtue and not vomit-piss evil horrors like they are, Satanic Tools .. Best they know that each death of them – unless and until the Repent – would be a Goodness for humanity. Or at least a reasonable man could easily be thinking – and how wrong would he be?

Why the F- are you not thinking the same or similar? .. still blaming their other victims – the hoards of immigrants or the vile viscous cnt women destroying our families – retarded mind-raped themselves – everyone but those families are sure everyone else – but those in the powerful families are our enemies and need to fight against – like how the Golden-Calf Satanist Elites are genociding White Christians men and

potential fathers and terrorize the populations and then bring in raping military men from middle east or Africa to fill the daughters, sisters, .. with their future generations – all bowing to Islam or Vagina-god Satan to the directions of Golden-Calf Satanists .. this evil from elites on both sides of the Ukraine-Russian war .. anyone who cares about the regular people and access with Nukes would have already killed less people but the most putrid vile inHuman evil that is driving this cntHell, and perhaps you – or perhaps all the father's who children were taken or murdered before born or bombs dropped on their families in coordination with the Satanic elites on the 'other side' .. those could have a few days of sawing off the heads of those Witches, instead of ..

.. But then again – God Demands Love and not Death, and Better from us all., ..

Interesting – I wonder if this will become the next '*Horse medicine*' or made illegal. Unable to be filled by Pharmacists who could be dragged to death the the streets chained-up with all the older cnt Witches that raised them .. like many were – along with doctors – not too long ago. Or more correctly expressed – were always and will always be best Gone – perhaps rotting in ground – and the last few years of Plandemic mind-soul-Raping evils we were forced to Suffer gave them a real good opportunity to be remembered ..

.. I saw some videos of pharmacists that a few hours of crushing and grinding bones with hammers on video and spread far and wide would have made a much better

impression then those rioting minority stealing vicious grasping retards or Brown-Shirts pushed and directed by Witches at stores and making a mockery of policing and Order – showing that such is only to be used as abuse against you and me while crime and riot, arson, fear, .. rule the streets.

Only a little sharper – more intelligent and better directed - use of a fraction of such violence and power directed if not at those powerful families, instead to make their henchmen piss themselves and all the older women in there families begging them to behave – memories of old Witches like them screaming while head sawed off like some kind of Islam-State video, but here where the source of the real evil starts – the older Witches in powerful families and their minions., ..

I came across this indirectly – and with all the race vomit we have been swimming in since that Golden-Calf Satanists Obama re-ignited and fed the flames of false-based unreasoned resentment – abusing those who seek gimmies and good-sounding excuses why so many (on average) low IQ and fatherless people are unable to compete ..

.. Apologetic – F-you if you assume I am blaming the weak Witch raised and twisted blacks, as I have written – the complexity is increasing on purpose by the government – when it is a huge waste of time and resources and logistics to even renew an driver's license to prove who you are – and they not allowing the old one to be verification, packed with make-work jobs to give women and minorities the 'good jobs' and so geneociding families and twisting women into more vile vicious slimy cnts under local Witches connected to Fungal-Strangulation international Witch-Web, etc

And F-you for most of you being the slimy Witch-raised cnts that scream '**PEOPLE**kind not **MAN**kind' and lacking the Charity to allow a man to advance some facts without wanting and working to send him and family homeless and dead on your feces covered streets .. you F-ing Evil Cnts .. where it is reasonable to hope in a Sad way that all older women drop

dead – to remove the relatively few top powerful Witches that are Sickening you now mind-raping mind-raped Curses on Life, Love, Joy, Hope, .. that they Shaped you into – while turning you into a vicious vile lying sack-of-Poisoning Vomit .. and so each time anyone must mention some fact we now can assume your howling inHuman Programmed mad-dog putrid cnts will jump forward ..

.. am I wrong?

On Race and Crime, a Counterfactual Narrative

The notion that blacks are at elevated risk for “existing while black” is true—but not because whites are killing them.

The shooting of a teen-ager in Kansas City, Missouri, has added “knocking on the door while black” and “existing while black” to the list of activities that allegedly put blacks at daily risk of their lives in white supremacist America. Meantime, the actual configuration of interracial violence is assiduously ignored.

On April 13, 2023, at around 10 p.m., 16-year-old Ralph Yarl went to the wrong address in a Kansas City residential neighborhood to pick up his younger brothers. Yarl rang the doorbell,

difficult to see how it can have produced the substantial difference which exists in the latter. The imagery of the Indian, both in his poetry and in his oratory, is oriental; chastened, and perhaps improved, by the limited range of his practical knowledge. He draws his metaphors from the clouds, the seasons, the birds, the beasts, and the vegetable world. In this, perhaps, he does no more than any other energetic and imaginative race would do, being compelled to set bounds to fancy by experience; but the North American Indian clothes his ideas in a dress which is different from that of the African, and is oriental in itself. His language has the richness and sententious fullness of the Chinese. He will express a phrase in a word, and he will qualify the meaning of an entire sentence by a syllable; he will even convey different significations by the simplest inflections of the voice.

Philologists have said that there are but two or three languages, properly speaking, among all the numerous tribes which formerly occupied the country that now composes the United States. They ascribe the known difficulty one people have to understand another to corruptions and dialects. The writer remembers to have been present at an interview between two chiefs of the Great Prairies west of the Mississippi, and when an interpreter was in attendance who spoke both their languages. The warriors appeared to be on the most friendly

LEAP FOR YOUR LIFE!

Life for frogs has never been more dangerous than with Sega / Gremor's newest video game, Frogger™. The city pads and ponds of yesterday are only a dream as players attempt to save Frogger from wreckless hot rods and hungry crocodiles. Frogger is crazy. It's

danger and fun rolled into one. Frogger leaps from speeding cars and trucks on a busy highway to slippery logs and diving turtles in a rushing river. His life is constantly in jeopardy, safe only in a protected swamp home along the treacherous river.

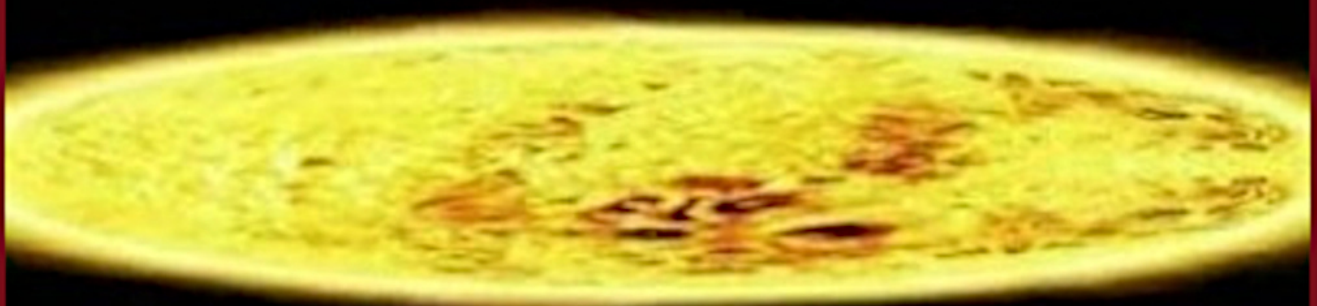

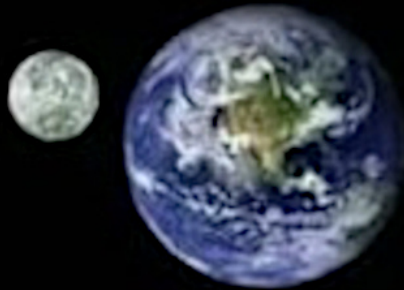

A one or two player game, Frogger has a special place among other games, with happy, toe-tapping music and intriguing game play that's fun for the whole family. Your profit skyrockets because Frogger scores big with every crowd.

The bloody death of a liberal dream: After throwing open its borders to 2million migrants, DAVID JONES investigates how Sweden has been left with an underclass of alienated teenagers, a murderous gang culture and gun crime that's spiralling out of control

- 200 mourners attended a Muslim cemetery to bury a teenage Afghan boy
- The 15-year-old was killed allegedly by a gangster of the same age in Sweden
- Since Christmas, Stockholm faced 30 shootings and bombings, four were fatal

On a biting cold morning in Stockholm, two days ago, I stood among 200 mourners in a Muslim cemetery, set in a magnificent pine forest.

They had come to bury a 15-year-old Afghan boy who had been shot dead, allegedly by a gangster of the same age.

Yet as his coffin was lowered into the frozen ground, it seemed to me that we were also witnessing the death of Sweden's great multi-cultural dream.

Captain, the average human body takes 236,624.5 kilocalories of energy and approximately 3 hours to cremate. It seems highly unlikely that a civilization from early 20th century earth could possibly cremate 6 million individuals over a period of 4 years, especially while engaged in a global conflict.

"I don't even like White people. I'm going to shoot your ass!"

Hate Crime charges coming in 3... 2... *never*.

Despite the revelation that the Black North Carolina man who attempted to murder 6-year-old Kinsley White and her parents announced that he doesn't like White people *while* he was trying to murder White people, there hasn't been a *whisper* from law enforcement or mass media punditry.

Because under **Bolshevik** US law, Hate Crime™ is simply a legal enhancement used to punish White people *extra* for being White.

Kinsley's father, Jamie, has provided details of the shooting since being released from the hospital. The bullet fragment that pierced his daughter's cheek first passed through his body as he shielded her from the Anti-White attack.

There will be no acknowledgment of Jamie White's heroism from the White House, though.

No parade of televised puff pieces for a family of White survivors of "racially motivated violence."

The Anti-White system will maintain its Anti-White silence on the matter, while it loudly maligns an 84-year-old White man who was frightened out of bed at 10:30 at night.

It's incumbent upon *us* to spread the details of these stories to the best of our ability - and to call for hate crime charges in such cases.

No - "hate crimes" should not exist as a category - but the best way to abolish that category is to force it to be applied **in the defense of** the *most* hated, *most* victimized group in the United States: White people.

**BLACK WHO TRIED TO MURDER WHITE
6-Year Old Kinsley White In N.C.
Allegedly Said "I Don't Even Like
White People" During Shooting**

He allegedly fired at Kinsley and her parents after he became enraged that some kids let their basketball roll onto his property.

"At that point, I took off. My youngin' was down the road, too. My little girl and about 10, 12 other kids were down there. They were all stunned."

He said he told Singletary to stop firing in front of all the children.

"I said, 'Man, that's crazy.' And he said, 'You white? I don't even like white people. I'm going to shoot your ass.'"

He said the assailant dropped his gun, grabbed another, and opened fire at him and his daughter.

I'll never look at the Left the same after the smearing of Brett Kavanaugh. It wasn't politics, it was pure evil. Accusing a husband and a father of two of gang rape

and a father of two of gang rape without a shred of evidence was a game changer for me. They will do anything for power. Don't let them near it.

HIDDEN FACT

Overpopulation is a myth. In fact, there is so much room on Earth that, if everyone lived as densely as New York City, the entire world population of 7.8 billion people could fit into

population of 7.8 billion people could fit into
into the state of Alaska and give them
all an acre of land and everyone would fit nicely.
Overpopulation is a lie just like everything else.
The lie that we are overpopulated is spread to
induce fear and scarcity over the masses,
and to justify ways to "lower" the population.
It is a statistical fact that 50% of humans live on
less than 1% of the land, and
if a fraction of lawns were turned into gardens,
food scarcity would be non-existent.

One thing that makes the abundant self-esteem of blacks — studies find that they possess more than any other group in America — so interesting is that it defies the left's oppression narrative and the idea that poor black academic and IQ test scores are due to stereotype threat.
